BROADWAY THEATER.

The best yet in the vaudeville line will open at the Broadway theater today for the first three days of the week. The headliner, which is Gus Hornbrook's Broncho Busters, is a sensational western novelty act which was the talk of New London last week, because everybody that saw this act said that it was the best that they had ever seen. They carry eight people and three horses and a quartette which is very fine. The work of these horses and men has never been equalled before on any stage. Si Jenks, the ribe comedian, has an act that always pleases in this city, and is the kind that always get the laugh. Laudey Brothers the European equilibrists, have been seen before. Everything that they do is done with a snap that is always entertaining to see. The comedy sketch entitled The Same Old Story's will make a big hit with the audience. This act is one of the laughing sort, and is full of amusing situations. As usual the best motion pictures will be run during the performances.

THE AUDITORIUM.

The saying "as stubborn as a mule" is more trite than true, as is proven by White's educated mules, playing at the Auditorium this week. The natural kicking and bucking proclivities of the mule have been made use of by Mr. White in the instance of Punch, nicknamed the Unrideable. This mule apparently derives as much fun from the futile efforts of those who attempt to ide him as do the spectators. This act is one uninterrupted laugh. Another feature turn for Monday, Tuesday and Wednesday is The La Noies, who are feature turn for Monday. Tuesday and wednesday is The La Noies, who are feature turn for Monday, Tuesday and Wednesday is The La Noies, who are feature turn for Monday, Tuesday and Wednesday is The La Noies, who are feature turn for Monday, Tuesday and Wednesday is The La Noies, who are feature turn for Monday, Tuesday and Wednesday is The La Noies, who are featured by using a specially constructed apring mat perform the most wonderful and funny evolutions imaginable, Cook and Weigand, the original College Boy and Girl, have a classy singing, dancing and pisano playing act that never falls to evoke favorable criticism. The fith Century aid, Dorushy O'Dush, is a clever up to date pomedienne who comes with all that is new in that line. Miss Morelle has a cautifully Hustrated ballad in "If Had the Werid to Give You," and the Auditorium duo will render an appropriate Irish melody, Don't overlook the motion pictures, which include some of home favorite comedies.

WOMAN'S COLLEGE May Be Lecated in Berlin, if D. A. R. Plans Prevail.

A very important meeting of Emma Hert Willard chapter, D. A. R., in cononce with several prominent citizens Berlin was held Thursday afternoon the home of Miss Emily Brandegee. The object of the meeting was to discuss the possible location of a woman's college in that town. While the production comes as a surprise to the town in general, it is not new to the numbers of Emma Hart Willard chapter, who have been secretly working for over five months to secure the college for Estim. In their effort the

for over five months to secure the college for Berlin. In their effort the chapter has the hearts support of President Hadley of Yale, President Luther of Trinity and other prominent educators in the state.

It is a foregone conclusion that a woman's college will have to be built in this state within a few years. Every year the colleges of Massachusetts have to turn away hundreds of young woman from their doors, owing to lack of room. Since the college must necessarily come in Connecticut, the D. A. R. chapter feels that the beautiful, quiet, old town of Berlin would be an ideal location for the institution.

SHALL APPLES BE GRADED? 3. H. Hale in Washington in Suppor of Lafean Bill.

J. H. Hale of Glastonbury, represent-ing the Connecticut Pomological socie-ty and the Connecticut Board of Trade, appeared with others before the house appeared with others before the house committee on agriculture at Washington this week in advocacy of the Lafean bill prescribing standard packages and grades of apples. Mr. Hale said that the business of the American apple growers at home and abroad has been seriously injured by the practice of packing their product in all sorts and sizes of barrels and putting good fruit at the ends of the barrel and cuils in the center. He said it is impossible for the purchaser to know what he is buying. It is proposed eventually to stand-rdize packages and grades of other ruit. The committee will give another

BLOCK DAY To Be Observed in Derby-All Resi-

dents to Help Beautfy City. On Wednesday preliminary work for ock Day in the city was done. The wic club has divided the city into teen districts, and each district has exteen districts, and each district has a captain with a number of assistents in each district made a house to house visit to distribute envelopes. It is decided by the committee in charge of Block Day that the people take care of these envelopes and put into them whatever sum of money they feel disposed to give, and that on the following Wednesday evening, March 16, at I o'clock in the evening, these same envelopes containing the money that is to be donated, be handed to the captains and assistants when they will rail again at the houses. The money to be raised in this way is to be used in improving the appearance of the city.

Claim That It is Impossible to Comply With New By-Law.

The by-laws passed some months ago by the Meriden common council ordering all houses connected with the city sewer by June I will have to be changed so that the time can be extended for six months, the plumbers must. They say It is impossible for them to complete all the contracts they have on hand up to the present time. During the past winter the plumbers have had extra help on and all are

hustling to get as many houses con-nected as possible before June, but they are away behind with their orders and can see no relief for months to

It is probable that a resolution will be presented at the next council meeting to have the time extended. If the council lisists on June as the final date it will be necessary for many property owners to go out of town to get plumbers to take contracts.

HAS NO AUTHORITY. Young Woman Claiming to Be Employed by Water Department.

Reports have been received at the office of the water commissioners, says the New Britain Herald, that a young woman who is described as wearing a red coat and a pleasant smile, has been calling at residences in various parts of the city and saying that she has been sent out by the water department to look up the leaky faucets.

The water commissioners disclaim any knowledge of the young woman or any responsibility for her actions. What the lay is seems to be a mystery. Some of the people think she is a sneak thief, while others are inclined to believe that she is the advance agent for a gang of burglars.

Whatever the young woman is out for, she's a mystery and the timorous people of the city are saying: "Sh-h; people of the city are saying: "Sh-h; beware of the young woman with a red coat and a pleasing smile."

COST OF MILK PROLJCING Higher Than Ever Before, Decides New Britain Association,

The annual meeting of the New Britain Milk Producers' association was held Monday afternoon. There were present about twenty-five milk producers, who wholesale milk to dealers in the city of New Britain.

A long discussion regarding the cost of milk and the selling price developed the unanimous opinion that it costs more to produce milk today than ever before and it was the unanimous opinion of all present that the price of five cents for eight months and four cents for four months at the farms should be maintained. Notices to this effect have been sent out to all milk producers, wholesaling milk in the city of New Britain,

PRISON FOR DR. HARVEY. Gets Three Year Term for Performing

Criminal Operation on Hartford. Dr. Charles E. Harvey of Hartford, pleaded guilty in the superior court Wednesday to the charge of perform-ing a criminal operation and was sen-tenced by Judge Case to a term of not tenced by Judge Case to a term of not less than two nor more than three years, in the state prison at Wethersfield. Dr. Harvey first pleaded not guilty and a jury was empanelled. Bertha Norton, the principal witness, was put on the stand and before she completed her testimony the accused changed his plea to guilty and judgment was given. It was the second time within five years that he had been convicted of the offense.

EPIDEMIC OF ITCH IN WELSH VILLAGE

"In Dowlais, South Wales, about afteen years ago, families were stricken wholesale by a disease known as the itch. Believe me, it is the most terrible disease of its kind that I know of, as it itches all through your body and makes your life an inferno. Sleep is out of the question and you feel as if a million mosquitos were attacking you at the same time. I knew a dozen families that were so affected.

"The doctors did their best but their remedies were of no avail whatever. Then the families tried a chemist who was noted far and wide for his remarkable cures, but his medicine made matters still worse. As a last resort they were advised by a friend to use the Cuticura Remedies. I am glad to tell you that after a few days' treatment with Cuticura Soap, Ointment and Resolvent, the effect was wonderful and the result was a perfect cure in all cases. Thomas Hugh, 1650 W. Huron St., Chicago, Ill., June 28, 1909."

A DIRGE. He is gone on the mountain.

He is lost to the forest.

Like a summer-dried fountain.

When our need was the sorest.

The font, reappearing,
From the raindrops shall borrows

But to us comes no cheering.

To Duncan no morrow.

The hand of the reaper
Takes the cars that are heary.
But the voice of the weeper
Walls manhood in glory:
The autumn winds rushing
Waft the leaves that are searest;
But our flower was in flushing
When blighting was nearest.

Sage counsel in cumber,
ed hand in the foray,
How sound is thy slumber?
ske the dow on the mountain
Like the foam on the river,
die the bubble on the fountain.
Thou art gone, and forever!

Lupton reports that petrot-driven street cars are being put in service in Karachi, India, with a view to speedler service without the cost of changing the system to an elec-eric line. The cars, seating 46 people, are driven by a Lucas valveless engine WHA SI,000 WILL BUY, of 25 horsepower, and are capable of maxing about 10 miles an hour. The consul is told that this is the first application of petrol engines to street railway traffic.
